

Institute Projects (2025-30)

S. No.	Name of Project	Programme Leader
01	Genetic enhancement of potato through molecular and genomic tools	Dr. Ajay K Thakur
02	Development of trait specific potato varieties with higher productivity and quality for diverse agro-ecologies.	Dr. Salej Sood
03	Management of potato germplasm	Dr. Dalamu
04	Integrated Approaches for the Development and Production of Nucleus and Breeder Seed of Notified Potato Varieties	Dr. Vinod Kumar
05	Climate Change and Natural Resource Management	Dr. Anil Sharma
06	Popularization structure, diagnosis, epidemiology and sustainable management of potato pests and pathogens	Dr. Sanjeev Sharma
07	Post-harvest management, nutritional enhancement and deciphering physio-molecular mechanisms governing key traits of potato	Dr. Som Dutt
08	Technology-led interventions for resilient potato production and livelihood opportunities through technology dissemination and impact assessment.	Dr. Alok Kumar
